

BRITISH UNIVERSITIES KARTING CHAMPIONSHIP

BRITISH UNIVERSITIES KARTING CHAMPIONSHIP 2019

RULES AND REGULATIONS

1. CHAMPIONSHIP

1.1. OVERVIEW

The 2019 championships will consist of 2 champions titled the Premier Class Championship and the Intermediate Class Championship. There will also be an additional non-championship-scoring series of events called the Rookie Series designed for drivers new to the BUKC.

All teams wishing to take part in either of the Premier Class or Intermediate Class Championships must qualify in one of the two Qualifier race days.

The top 54 teams across the two Qualifier race days will qualify for the Premier Class Championship. The next 45 teams will qualify for the Intermediate Class Championship. Any teams that do not qualify for either the Premier Class or Intermediate Class championships will be put at the top of reserve list for the Intermediate Class Championship.

The results from the Qualifiers will count as one round towards the Premier Class Championship results. The results from the Qualifiers will also count as the first round of the Intermediate Class Championship. However points will be reallocated after the Qualifiers such that points are consistent with the Intermediate Class. For example, the team which finishes 28th on one of the Qualifier race days (i.e. just missed out qualifying for the Premier Class) would effectively be 1st of the Intermediate Class teams; they will therefore be awarded points for 1st in the Intermediate Class for this event. See Intermediate Class rules.

In addition there are several test days for drivers to familiarise themselves with the performance of the karts.

The Qualifier race days will consist of:

- 4 x 10 min practice / qualifying sessions followed by
- 4 x 20 minute Sprint Races followed by
- 4 x 20 minute Sprint Races

Each race day of the Premier Class Championship will consist of:

- Sprint Race Format in the morning
- Endurance Race Format in the afternoon

Each race day of the Intermediate Class Championship will consist of:

- 4 x 20 min practice / qualifying sessions followed by
- 4 x 25 minute Sprint Races

Each race day of the Rookies Series will consist of:

- 1 x 15 min practice session followed by
- 1 x 15 min qualifying session followed by
- 1 x 12 minute Sprint Races

1.2. SIGNING ON / LATE ARRIVALS

- 1.2.1. Arrival for all race days, unless indicated otherwise will be at 7am. The briefing, unless indicated otherwise will start at 8am.
- 1.2.2. Teams that are not present and FULLY SIGNED ON in their entirety at the start of briefing may be refused entry into the race day. No refund will be given.

Teams should ensure that they should have enough time spare to deal with potential traffic problems. Teams should therefore aim to arrive at 7am at the very latest

2. ELIGIBILITY

2.1. TEAM CONSTITUTION

- 2.1.1. Teams for the Qualifiers, Premier Class or Intermediate Class must be made up of 4 drivers only. The Rookie Series is not a team event and is contested by individual drivers only.
- 2.1.2. Drivers must only compete for one team at each race day except as defined in rule 2.5.
- 2.1.3. Drivers may only compete in either the Premier Class Championship or Intermediate Class Championship over the course of each race meeting where a race meeting is defined as a day of the Premier Class Championship followed or preceded by a day of the Intermediate Class Championship. Exceptions to this rule can be applied for in advance of the race meeting by contacting Club100 Racing Ltd. In such circumstances the driver will be considered not eligible for points in one of the race days.
- 2.1.4. Drivers may switch between Premier Class and Intermediate Class teams between race meetings.

2.2. UNIVERSITY STATUS

- 2.2.1. All drivers for each university team must be current students at that university.
- 2.2.2. Union cards will be checked at every race day to verify university status.
- 2.2.3. Those who cannot prove their university status will be refused entry into the event. No refund will be given, and the team may not be eligible for points if it can't find a suitable replacement driver from their university. See Rule 2.5.

2.3. DRIVER EXPERIENCE / RACE LICENCES

- 2.3.1. Drivers will only be allowed to race in the Qualifiers, the Premier Class Championship or Intermediate Class Championship if they have been issued with a BUKC Race Licence.
- 2.3.2. A BUKC Race Licence will be issued only to drivers who have shown sufficient competency at a BUKC Test Day or can prove that they decent 2-stroke karting experience such as an MSA Race Licence and, importantly, proof of results and lap times.

2.4. MINIMUM WEIGHT

- 2.4.1. All drivers must weigh at least 75kg with all of their karting gear on. We strongly recommend that all drivers weigh up to 1kg over the 75kg weight threshold.
- 2.4.2. Competitors who fail to reach the minimum weight threshold can add lead ballast to the kart and / or attach lead ballast to a seat insert. Drivers may only add up to 14kg of lead ballast to the kart (which must be securely fastened to the specific weight posts on the Club100 karts). Drivers may use as much lead flashing attached to a seat insert as required so long as it is deemed safe by Club100. For more information contact Club100.

Any ballast attached to the karts' ballast poles must confirm to the following specifications and limitations:

- All ballast must be lead or steel material
- Cast iron is not permitted
- The use of dumbbell is not permitted
- The diameter of the central hole drilled must not exceed 15mm
- The diameter of the ballast pieces must not exceed 120mm
-

- 2.4.3. Weight inspections can be carried out at any time.
- 2.4.4. Failing to meet the minimum weight threshold during a weight inspection will result in disqualification of that driver from that race. A DNF will be recorded in this situation and no points will be awarded to the team.

- 2.4.5. Drivers using ballast that does not conform to the specification defined in 2.4.2 may be disqualified from that race. A DNF will be recorded in this situation and no points will be awarded to the team.

2.5. RESERVE DRIVERS

- 2.5.1. If a team cannot achieve its target of 4 drivers, then Club100 must be informed before the briefing.
- 2.5.2. Club100 will attempt to find a reserve driver from another university (or otherwise) who is willing to drive for the team as long as the reserve driver satisfies the requirements set out in Rule 2.3.
- 2.5.3. The reserve driver will be regarded as Not Eligible for Points.
- 2.5.4. If the reserve driver is from the same university and is racing in another team then the reserve driver must race in the reserve team after he / she has raced in his / her normal team.
- 2.5.5. If Club100 cannot find a reserve driver then the team may race with less than 4 drivers but the driver(s) that race in more races than the Format Specific rules allow (see 3.2 and 4.2) will be regarded as Not Eligible for Points for the extra races that they race in.
- For example if a team only has 3 drivers and one of the drivers race in two Sprint-Races instead of one, then he/she will Not be Eligible for Points for one of the two races.*
- 2.5.6. Teams who have a driver that is Not Eligible for Points will not be awarded any points for any races that the driver who is Not Eligible for points races in.

2.6. NON UNIVERSITY TEAMS

- 2.6.1. Teams consisting of entirely non-university members may also race in the championship at the discretion of the Club100.
- 2.6.2. Such teams will not be eligible to receive any race points or championship points.

2.7. EVENT CANCELLATION

- 2.7.1. Should it be necessary for any championship round to be cancelled for whatever reason prior to the start of the event, the organisers will endeavour to allocate an alternative date and/or venue. Any substituted round will count towards the championship.
- 2.7.2. Should it be necessary to abandon an event for any reason, such as adverse weather conditions, the results will be taken to the last race that resulted in equal races being run and championship points will be awarded accordingly. In this case, partial refund or an alternative date to complete the meeting will not be offered.

3. SPRINT RACE FORMAT

3.1. OVERVIEW

- 3.1.1. To take the form of six 25 minute races known as Sprint-Races.
- 3.1.2. Each team may only race in four of the six Sprint-Races.
- 3.1.3. No driver changes are allowed during any Sprint-Race.
- 3.1.4. Points are added up from each race to determine the finishing positions of the team for that Round.
- 3.1.5. Club100 reserve the right to amend the duration of the sessions and races at any time.

3.2. FORMAT SPECIFIC RULES

- 3.2.1. No driver changes are allowed during a Sprint-Race.
- 3.2.2. Refuelling is not required during a Sprint-Race.
- 3.2.3. Each driver of a team may only compete in one Sprint-Race unless their team consists of less than 4 drivers as defined by rule 2.5.

3.3. QUALIFYING/GRID POSITIONS

- 3.3.1. A grid generator program determines grid positions for the Sprint-Race Format.
- 3.3.2. The program is designed to give each team the same grid position on average over 4 races as every other team.

3.4. POINTS ALLOCATION

- 3.4.1. Points will be awarded per Sprint-Race in the exact same way described by Rule 8. These points shall be known as Sprint-Race Points.
- 3.4.2. The finishing positions for a Sprint-Race Format Round will be worked out according to the accumulative total of the points allocated to the team's best 3 Sprint-Race results.
- 3.4.3. In the event of a tie on Sprint-Race Points between teams at the end of the Sprint-Race Format Round, the higher placed team shall be the team with the most first places among their best 3 Sprint-Race results. If the teams are still tied, we go to second places of their best 3 Sprint-Races, and so on until a result is achieved. In the unlikely event of a tie at this point, the team with the fastest lap taken from all the lap-times of the 4 Sprint-Races will be the winner.

The reason why the result of the dropped race is not counted in a tie situation is because the aim of dropping a race is to account for bad luck / crash damage / poor kart. If a poor result was caused because of one of these factors then it wouldn't be appropriate to use that result in a tie situation. Instead the best lap from that dropped race can be used

as well as the best laps from the other 3 races to work out which team should be placed higher.

- 3.4.4. Championship points for the Sprint Format Round(s) will be awarded as described in Rule 8.

4. ENDURANCE RACE FORMAT

4.1. OVERVIEW

- 4.1.1. To take the form of three one hour races known as Endurance Races.
- 4.1.2. Each team may only race in two of the three Endurance Races.
- 4.1.3. Teams are split in to two teams of two (known as a Pair) and each team must declare which drivers will be racing in each Endurance Race at sign on time.
- 4.1.4. Points are added up from each race to determine the finishing positions of the team for that Round.
- 4.1.5. Club100 reserve the right to amend the duration of the sessions and races at any time.

4.2. FORMAT SPECIFIC RULES

- 4.2.1. Only two of the four drivers in a team may race in a single Endurance Race.

This group of two will be known as a Pair.

- 4.2.2. 2 stops must be made in each Endurance Race.

Both stops must be fuel stops.

Driver changes can also be made at either fuel stop.

A driver change must be made during one of the fuel stops.

Fuel stops must only be made during specific times. See Rule 4.2.3

- 4.2.3. The pit-lane will only be open for refuelling during specific times.

The pit-lane will be open / closed during the following times:

0 – 5 mins: CLOSED
5 – 25mins: OPEN
25 – 35mins: CLOSED
35 – 55mins: OPEN
55 – 60mins: CLOSED

One fuel stop must be made in each pit-lane OPEN period.

Teams that come into the pit-lane to refuel when the pit-lane is not open will be forced to rejoin the circuit without being allowed to do their fuel-stop.

Teams that do not complete both fuel-stops by the end of the last pit-lane OPEN period will be forced to make a 30-second stop-go penalty. Failure to take the 30 second stop-go penalty will result in a lap deduction from the final race results.

A driver may however bring the kart in if it is suffering from crash damage or to retire.

- 4.2.4. Drivers must not have any body part in the seat of the kart until the fuel nozzle is completely out of the fuel tank. Club100 reserve the right to tell drivers to step out of the kart until refuelling is finished and the nozzle is out of the fuel tank. Furthermore, if a driver arrives at the fuel bay at a dangerous speed and risks incident, the Club100 team shall reserve the right to send the driver back out on circuit without re-fuelling. technically asking the driver to 'try again'.
- 4.2.5. Each driver may only race in one Endurance Race only unless their team consists of less than 4 drivers as defined by rule 2.5.

4.3. GRID POSITIONS

- 4.3.1. A grid generator program determines grid positions for the Endurance-Race Format.
- 4.3.2. The program is designed to give each team the same grid position on average over 2 races as every other team.

4.4. POINTS ALLOCATION

- 4.4.1. Points will be awarded per Endurance Race in the exact same way described by Rule 8. These points shall be known as Endurance Race Points.
- 4.4.2. The finishing positions for an Endurance Format Round will be worked out according to the accumulative total of the points allocated to the team for both Endurance Races. In the event of a tie on Endurance Race Points between teams at the end of the Endurance Format Round, the higher placed team shall be the team with the most first places in the two Endurance Races. If the teams are still tied, we go to second places of the two Endurance Races and so on until a result is achieved. In the unlikely event of a tie at this point, the team with the fastest lap taken from both Endurance Races will be the winner.
- 4.4.3. Championship points for the Endurance Format Round(s) will be awarded as described in Rule 8.

5. QUALIFYING RACE DAY FORMAT

5.1. OVERVIEW

- 5.1.1. To take the form of six 10 minute qualifying sessions followed by six 20 minute races known as Sprint-Races and a further six 20 minute Sprint-Races.
- 5.1.2. Each team must enter four of the six 10 minute practice / qualifying sessions and eight of the twelve Sprint-Races.
- 5.1.3. The result of the qualifying session will determine the grid for the corresponding Sprint Race. E.g. qualifying 1 will determine the grid for race 1 etc.
- 5.1.4. The result of each of the first six Sprint Races will determine the grid the last six Sprint Races. E.g. the result of sprint race 1 will determine the grid for sprint race 7.
- 5.1.5. Points are added up from each team's best 6 sprint race results to determine the finishing positions of the team for the day.
- 5.1.6. There will be two qualifying race days in total. Universities will be allocated a day for qualifying by Club100.
- 5.1.7. The top 54 teams from the qualifiers will qualify through to the Premier Class Championship. The next 45 teams will qualify for the Intermediate Class Championship. Those teams that do not qualify for either the Premier Class or Intermediate Class Championships will be put on the reserve list for the Intermediate Class Championship.
- 5.1.8. The number of teams qualifying from each qualifying day will be proportional to the number of teams entered into each qualifier. The final number qualifying from each region will be confirmed on the day of the qualifiers.
- 5.1.9. Out of the 54 teams which qualify through to the Premier Class Championship, the top 26 of these teams will be considered as Premier Class teams, the bottom 28 will be considered as Clubman teams.
- 5.1.10. Club100 reserve the right to amend the duration of the sessions and races at any time.

5.2. FORMAT SPECIFIC RULES

- 5.2.1. No driver changes are allowed during a sprint race.
- 5.2.2. Refuelling is not required during a sprint race.
- 5.2.3. Each driver of a team may only compete in two sprint races unless their team consists of less than 4 drivers as defined by rule 2.5.
- 5.2.4. No driver changes are allowed during a qualifying session, though drivers may come into the pits at any time.
- 5.2.5. Each qualifying session will be 10 minutes in length.

- 5.2.6. For all sprint races, each driver must race in the race for the corresponding qualifying session. For example, the driver qualifying in qualifying 1 may only race in Race 1 and Race 7. Similarly the driver qualifying in qualifying session 2 must only race in Race 2 and Race 8.
- 5.2.7. Drivers will be given coloured BUKC wristbands corresponding to a particular practice / qualifying session. The colours for each session will be determined on the day. Drivers must wear the coloured wristband for the qualifying session and the corresponding races. Drivers which fail to have the correct colour of wristband or do not have a wristband on during the races will be excluded from that race and be awarded 0 points.

5.3. QUALIFYING/GRID POSITIONS

- 5.3.1. A group generator program determines groupings for the practice / qualifying sessions.
- 5.3.2. The program is designed to spread out each team in an equal fashion.

5.4. POINTS ALLOCATION

- 5.4.1. Points will be awarded per Sprint Race in the exact same way described by Rule 8. These points shall be known as Sprint-Race Points.
- 5.4.2. The finishing positions for a Qualifying Race Day will be worked out according to the accumulative total of the points allocated to the team's best 6 Sprint Race results.
- 5.4.3. In the event of a tie on Sprint-Race Points between teams at the end of the Qualifying Race Day, the higher placed team shall be the team with the most first places among their best 6 Sprint-Race results. If the teams are still tied, we go to second places of their best 6 Sprint-Races, and so on until a result is achieved. In the unlikely event of a tie at this point, the team with the fastest lap taken from all the lap-times of the 8 Sprint-Races will be the winner.

The reason why the result of the dropped race is not counted in a tie situation is because the aim of dropping a race is to account for bad luck / crash damage / poor kart. If a poor result was caused because of one of these factors then it wouldn't be appropriate to use that result in a tie situation. Instead the best lap from those dropped races can be used as well as the best laps from the other 6 races to work out which team should be placed higher.

6. INTERMEDIATE CLASS CHAMPIONSHIP FORMAT

6.1. OVERVIEW

- 6.1.1. To take the form of five 20 minute practice / qualifying sessions followed by five 25 minute races known as Sprint-Races.
- 6.1.2. Each team must enter four of the five 20 minute practice / qualifying sessions and four of the five 25 minute races.

- 6.1.3. The result of the practice / qualifying session will determine the grid for the corresponding race. E.g. practice / qualifying 1 will determine the grid for race 1 etc.
- 6.1.4. Points are added up from each of the sprint races to determine the finishing positions of the team for that Round.
- 6.1.5. Club100 reserve the right to amend the duration of the sessions and races at any time.

6.2. FORMAT SPECIFIC RULES

- 6.2.1. No driver changes are allowed during a practice / qualifying session, though drivers may come into the pits at any time.
- 6.2.2. Each practice / qualifying session will be 20 minutes in length. The first 10 minutes will be considered practice only. After 10 minutes is completed, a green flag will be waved at the start finish line signalling the start of qualifying. Qualifying will continue for the remaining 10 minutes of the 20 minute session.
- 6.2.3. Each driver must race in the race for the corresponding practice / qualifying. For example, the driver qualifying in practice / qualifying 1 may only race in Race 1. Similarly the driver qualifying in practice / qualifying session 2 must only race in Race 2 and so on.
- 6.2.4. Drivers will be given coloured BUKC wristbands corresponding to a particular practice / qualifying session. The colours for each session will be determined on the day. Drivers must wear the coloured wristband for both the qualifying session and the corresponding race. Drivers which fail to have the correct colour of wristband or do not have a wristband on during the race will be excluded from that race and be awarded 0 points.
- 6.2.5. No driver changes are allowed during a Sprint-Race.
- 6.2.6. Refuelling is not required during a Sprint-Race.
- 6.2.7. Each driver of a team may only compete in one practice / qualifying session and only one Sprint-Race unless their team consists of less than 4 drivers as defined by rule 2.5.

6.3. QUALIFYING/GRID POSITIONS

- 6.3.1. A group generator program determines groupings for the practice / qualifying sessions.
- 6.3.2. The program is designed to spread out each team in an equal fashion.

6.4. POINTS ALLOCATION

- 6.4.1. Points will be awarded per Sprint-Race in the exact same way described by Rule 8. These points shall be known as Sprint-Race Points.

- 6.4.2. The finishing positions for a Intermediate Class Championship Format Round will be worked out according to the accumulative total of the points allocated to the team's best 3 Sprint-Race results.
- 6.4.3. In the event of a tie on Sprint-Race Points between teams at the end of the Sprint-Race Format Round, the higher placed team shall be the team with the most first places among their best 3 Sprint-Race results. If the teams are still tied, we go to second places of their best 3 Sprint-Races, and so on until a result is achieved. In the unlikely event of a tie at this point, the team with the fastest lap taken from all the lap-times of the 4 Sprint-Races will be the winner.

The reason why the result of the dropped race is not counted in a tie situation is because the aim of dropping a race is to account for bad luck / crash damage / poor kart. If a poor result was caused because of one of these factors then it wouldn't be appropriate to use that result in a tie situation. Instead the best lap from that dropped race can be used as well as the best laps from the other 3 races to work out which team should be placed higher.

- 6.4.4. Championship points for the Intermediate Class Championship Format Round(s) will be awarded as described in Rule 8.

7. ROOKIE SERIES FORMAT

7.1. OVERVIEW

- 7.1.1. The Rookie Series is designed for drivers new to the BUKC or those that are not yet quick enough or safe enough to race in the Intermediate or Premier Class Championships. The focus of the event is for drivers to get more practice time and get some experience of racing in a far less competitive environment.
- 7.1.2. To take the form of one 15 minute practice session followed by one 15 minute practice and one 12 minute race.
- 7.1.3. No championship points are awarded for any Rookie Series events.
- 7.1.4. Club100 reserve the right to amend the duration of the sessions and races at any time.
- 7.1.5. Drivers who show good competency may be awarded with their BUKC Race Licence at the end of a Rookie Series event.
- 7.1.6. Drivers who have a BUKC Race Licence may race in the Rookie Series on condition that if it is deemed they are significantly quicker than the majority of the drivers then they may be removed from the event with no refund. They will also be prevented from taking part in any future Rookie Series events.

The reason for this is that the focus of the Rookie Series is for drivers to build up their speed and experience in a environment of similarly paced drivers. Drivers who have a BUKC Race Licence and who are significantly quicker should be racing in the Intermediate Class or Premier Class championships.

7.2. FORMAT SPECIFIC RULES

- 7.2.1. No driver changes are allowed during a practice / qualifying session, though drivers may come into the pits at any time.
- 7.2.2. No driver changes are allowed during the race.
- 7.2.3. Refuelling is not required during the race.

7.3. QUALIFYING/GRID POSITIONS

- 7.3.1. The grid for the 12 minute race is taken from the result of the Qualifying session.

8. POINTS ALLOCATION

Points will be awarded per Round and per Race as follows:

Position	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
Points	60	59	58	57	56	55	54	53	52	51
Position	11th	12th	13th	14th	15th	16th	17th	18th	19th	20th
Points	50	49	48	47	46	45	44	43	42	41
Position	21st	22nd	23rd	24th	25th	26th	27th	28th	29th	30th
Points	40	39	38	37	36	35	34	33	32	31
Position	31st	32nd	33rd	34th	35th	36th	37th	38th	39th	40th
Points	30	29	28	27	26	25	24	23	22	21
Position	41st	42nd	43rd	44th	45th	46th	47th	48th	49th	50th
Points	20	19	18	17	16	15	14	13	12	11
Position	51st	52nd	53rd	54th	DNF					
Points	10	9	8	7	0					

8. RACE PROCEDURE

8.1. BEFORE THE RACE / QUALIFYING SESSION

- 8.1.1. The karts are randomly allocated. Teams may not select their own karts.
- 8.1.2. Prior to each race / qualifying session, teams should check the following items on the kart allocated to them in the pit lane:
- Fuel
 - Tyres & Rims
 - Plug Cap
 - Exhaust & fittings
 - All steering components
 - Chain (for tension)
 - Seat Stays
 - Seat
 - Nose Cone
 - Side Pods
 - Front and Rear Bumpers
 - Brakes
 - Accelerator and associated cables.
- 8.1.3. Teams are reminded that they must help each other to bump start the karts to get the race under way.

8.2. PRACTICE

- 8.2.1. Practice will precede each Race in the first round of a race day only and will be a minimum of 2 laps.

Rule 8.2.4 applies to kart changes during these practice laps.

If a driver makes the change after the chequered flag that marks the end of the practice laps, then they will not be allowed to re-test their kart. They will have to join the pack and then pick up the grid position without re-testing their kart.

Once competitors receive the chequered flag they should form up behind the Pace Kart that will then be on the circuit.

Competitors should then take up their correct grid positions during the subsequent rolling up laps.

- 8.2.2. Once a team starts the race, it will be assumed that they are satisfied with the performance of their kart.
- 8.2.3. Karts are hand built therefore each and every kart will be different. Drivers should explore the handling capabilities of their kart during practice.

8.2.4. During practice, if a driver finds a **serious** problem with their kart, they may return to the pits whereupon they will be allocated another kart, **if** one is available. Only one kart change per race will be allowed, but should the replacement kart have a serious engine problem (**NOT handling**) then a second change can be made. **However, if the kart testers find that the original kart was acceptable, then that driver will be given a DNF for that particular race.**

8.3. ROLLING UP / GRID FORMATION

8.3.1. Grid formation for each race will be 2 by 2.

8.3.2. It is the responsibility of every driver to start in his or her correct grid position. Drivers who are out of place and higher up on their side of the grid than they should be and who do not make every effort to signal to other drivers to pass will be penalised by means of a black flag after the race starts. All drivers who are out of position should raise a hand as high as possible to signal to the Starter that they are out of position.

8.3.3. Drivers must always follow the path of the leading pace kart unless directed otherwise by Club100. Any driver who breaks away from the path of the pace kart, such as cutting through a cut through in an effort to get some free space to warm up the kart will be penalised by means of a black flag after the race starts.

8.3.4. If a driver spins during rolling up laps, the driver must start from the back of the grid. The Starter may start the race without them.

8.3.5. Drivers in trouble should also raise a hand and return to the pits as soon as possible. Furthermore, following drivers may overtake competitors obviously in trouble i.e. significantly not keeping up with the pack.

8.3.6. The pole-man will control the pace as the pack approaches the start line. The pole-man must not accelerate until the green lights are shown on the eFlag or, if the eFlag is not being used, until the union jack flag is waved.

8.3.7. No other driver may overtake the pole man before the start line.

8.4. SPINNING OFF / STALLING

8.4.1. If a driver spins and stalls, they must move the kart to a safe position off the racing line and await a pusher kart.

8.4.2. Drivers are not allowed to push start themselves. If they do they and their team will be disqualified from the Round and awarded no points.

8.4.3. Competitors must accept the safety of the pusher kart drivers is of paramount importance; therefore, they are at liberty to refuse to start a kart in a dangerous position.

8.5. KART MALFUNCTION

8.5.1. During the race, teams suffering the following circumstances will be allocated another kart if there is one available:

- Engine seizure
- Complete ignition unit failure
- Complete carburettor failure,
- Complete brake failure (unless sustained by driver error)
- Complete failure of a major mechanical component (unless sustained by driver error)

8.5.2. No replacement kart will be immediately allocated to a team that becomes involved in any accident, either sole or multiple, that renders the kart broken. See Rule 8.7.

8.6. RACE FINISH

8.6.1. To be classed as a finisher, the kart must cross the line with the driver correctly seated, and the engine providing the motive power.

8.6.2. After the chequered flag has fallen and the driver has passed the finishing line, the driver must slow down and continue round the track back to the pits as if under Yellow Flag conditions.

8.7. KART DAMAGE

8.7.1. During the race, if a team sustains a broken chain, then another kart will be allocated to that team if one is available and only if the team has not received a kerb warning for that race. If a team has received a kerb warning in that race, then the team will have to wait for the kart to be repaired.

8.7.2. During the race, if a team sustains obvious crash damage other than as specified in rule 8.7.1 they will have to wait for it to be repaired.

8.7.3. If however, it is not repaired within 10 minutes, another kart will be allocated to that team.

8.7.4. Please Note: If a kart has obvious crash damage the above rule will apply regardless of fault or blame.

8.7.5. If the kart cannot be repaired before the end of the race then another kart will be provided.

8.7.6. If the driver does not complete the race a DNF will be awarded.

9. FLAGS

9.9.1. The following flags must be adhered to whilst on the circuit:

Green Lights on eFlag / Union Jack flag - Race starts

Red - Race stopped, slow down and be prepared to stop on any section of the circuit where directed. The pit-lane will remain closed until the race has been green-flagged once the incident has been cleared.

Yellow - Obstacle ahead, caution advised & no overtaking allowed until the obstacle has been passed. See Rule 9.2.

Red/Yellow striped - Caution, slippery surface ahead

Black/White diagonal - Driver warning for contact, kerbing etc.

Black - Driver excluded / Stop Go penalty, return to pits

Black/Orange circle - Mechanical failure, return to pits

Blue - Give way to competitors behind, you are being lapped

Chequered - End of race or practice, return to pit or get into your grid position behind the Pace Kart, respectively.

9.2. YELLOW FLAGS.

9.2.1. A driver should not overtake between the point of the track adjacent to a yellow flag and the incident for which the yellow flag is being waved.

9.2.2. During this time the driver should ease off the throttle but must not slow down so much that the kart stalls and becomes an obstacle itself.

9.2.3. It is advisable, but not essential, unless directed so by Club100, that each driver should acknowledge the yellow flag by raising his/her hand in the air.

9.2.4. All other drivers should treat the raised hand in the same way as a yellow flag and hence should not overtake.

9.2.5. Should a driver overtake on yellow flags, except to avoid stalling the engine, and realise the mistake, it is permissible for this driver to decelerate and signal for the other driver to re-pass.

9.2.6. It is incumbent on the other driver to re-take his position immediately, or the first driver is at liberty to carry on racing without penalty.

9.2.7. It must be noted that common sense should be exercised by all drivers; for example a driver should slow down a safe distance before an incident if the yellow flag is situated in close proximity to the incident.

9.2.8. Drivers that fail to act with common sense and a decent regard for safety will be warned, then, should he/she continue to drive irresponsibly, will be black flagged.

9.2.9. Penalties, specified by Club100, will be given to drivers who ignore these signals.

10. GENERAL

10.1. COMPETING IN THE BUKC

- 10.1.1. No member of any team shall be allowed to drive any kart round any part of the track on the day of the round for which it is being used for the British University Karting Championship prior to the BUKC briefing-of-the-day actually commencing.
- 10.1.2. Each driver must complete at least one lap of the circuit, though this maybe a lap which comprises of leaving the pits and re-entering at the earliest opportunity.

10.2. PENALTIES

- 10.2.1. Carburettor adjustment is strictly prohibited and considered a serious offence.

Any team caught adjusting the carburettor, for whatever reason, will be disqualified from the rest of the day's racing without appeal and no refund.

All points accumulated from races in that round will be removed for that team, shifting every team below that upwards by one place in each race. Please note this may affect the final round score of other teams.

Any adjustment of the carb from any person not related to that team will also penalise the team in the same way.

Club100 will accept video evidence as proof of carburettor adjustment so long as it 100% certain the video was recorded on the day and that it proves that a driver adjusted the carburettor. Video footage will not be used for any other kind of evidence.

- 10.2.2. Any team caught adjusting the carburettor after a race has finished, either on the track, or in the pit lane with the aim or ruining the next driver's race will be disqualified from the whole championship. No appeals, no refunds, no points.

Previous round results will stay the same except that the offending team will be given 0 points. Other teams will not be shifted up in the points table to take the disqualified team's place.

- 10.2.3. Any team caught adjusting the carburettor more than once in the championship will be disqualified from the rest of the championship. No appeals, no refunds, no points.
- 10.2.4. Drivers who knock over or make contact with a cone will receive a 5s time penalty applied at the end of the race for each cone knocked over / put out of place.
- 10.2.5. Any driver gaining positions prior to the start of the race (jump starting) will be penalised with a 10s time penalty at the end of the race per grid row gained.
- 10.2.6. Any driver making contact with or pushing the driver in front from the point of acceleration and the start line at the start of the race will receive a 10s time penalty applied at the end of the race.

10.2.7. Deliberate or excessive use of rumble strips / kerbs is prohibited. Warnings will be issued thus:

- 1st Offence: Kerbing board and/or 1st Warning Flag.
- 2nd offence: Kerbing board and/or 1st Warning Flag.
- 3rd Offence: 10s time penalty applied at the end of the race.
- Each subsequent offence: a further 10s time penalty applied at the end of the race.

10.2.8. Deliberate or excessive violations of track limits is prohibited. Warnings will be issued thus:

- 1st Offence: Kerbing or Track Limits board and/or 1st Warning Flag.
- 2nd offence: Kerbing or Track Limits board and/or 1st Warning Flag.
- 3rd Offence: 10s time penalty applied at the end of the race.
- Each subsequent offence: a further 10s time penalty applied at the end of the race.
- Any track limit warning applied during qualifying will result in the driver losing the lap for which the track limit warning was called.

10.2.9. Deliberate use of contact is prohibited. Warnings will be issued thus:

- 1st Offence: No bumping board and/or 1st Warning Flag.
- 2nd Offence: No bumping board and/or 1st Warning Flag.
- 3rd Offence: 10s time penalty applied at the end of the race.
- Each subsequent offence: a further 10s time penalty applied at the end of the race.

10.2.10. Drivers who gain a position advantage by contact will receive at minimum a 10s time penalty depending upon the severity of the incident. The penalty will be applied as follows:

- If the offended driver continues in the race (i.e. does not come to a halt), the penalty will be a 10s time penalty applied at the end of the race.
- If the offended driver spins or comes to a halt the penalty will be a 10s Stop Go Penalty (black flag).
- If the driver causes multiple drivers to spin or come to a halt the penalty will be a 20s Stop Go Penalty (black flag).

10.2.11. Any driver committing offence 10.2.10 more than once will receive a 20s Stop Go Penalty (black flag) regardless of severity of the incident.

- 10.2.12. Any driver overtaking under yellow flag conditions will receive a 10s Stop Go Penalty (black flag).
- 10.2.13. Any driver considered excessively speeding under yellow flag conditions will receive a 10s Stop Go Penalty (black flag).
- 10.2.14. Any driver who spins, falls off, or crashes into any stationary karts under yellow flag conditions will receive a 10s Stop Go Penalty (black flag).
- 10.2.15. Any driver committing offences 10.2.12, 10.2.13 or 10.2.14 more than once will receive a 20s Stop Go Penalty (black flag).
- 10.2.16. Any driver deliberately making contact with another driver after the chequered flag will be excluded from that race. Result DNF – 0 points.
- 10.2.17. A driver may not receive a Stop Go Penalty on the same lap as a Fuel Stop.
- To clarify, a driver must exit the pits after a fuel stop (and prior to executing a Stop Go Penalty) before re-entering the pits to receive the Stop Go Penalty OR a driver must exit the pits after a Stop Go Penalty (and prior to a fuel stop) before re-entering the pits to execute a fuel stop.
- 10.2.18. Any penalty applied during the last few laps of a race which mandates that the driver return to the pits to receive a Stop Go Penalty (black flag), but which is not taken by the driver before the chequered flag is issued, will result in a 1 lap deduction penalty for that driver.
- 10.2.19. Any penalty applied during a practice or qualifying session will result in the driver losing their fastest lap of the qualifying session. Any subsequent penalties will result in the driver losing their 2nd fastest lap and so on. For the avoidance of doubt drivers must still return to pits for any Stop Go Penalty (black flag) and the driver will also lose their fastest lap of the qualifying session.
- 10.2.20. Any driver deemed to be speeding in the pit-lane will receive a 20s Stop Go Penalty (black flag).
- 10.2.21. The Clerk of the Course has the right to make post race decisions after an inquiry.
- 10.2.22. A team or an individual competitor may receive an official verbal warning. Any further misconduct by the competitor may result in his/her exclusion from the event or the whole series.

10.3. SAFETY

- 10.3.1. Suits, helmets and gloves must be worn correctly and securely. Drivers will be black flagged if they fail to comply with this rule.
- 10.3.2. Drivers must not use dark, tinted or Iridium visors at any time when floodlights are on. In such circumstances the driver may be black flagged and excluded from the rest of the race. Result DNF.

10.3.3. The following regulations must be adhered to when using on board cameras, with no exceptions:

10.3.3.1. Drivers are not permitted to mount video cameras (such as GoPros or iON action cameras) on any part of the kart or any part of the driver except for on the helmet of the driver. For example, chest mounted cameras are not permitted.

10.3.3.2. All drivers choosing to use a helmet camera, must sign a 'terms of agreement' document with Club100 at the first event of the 2019 Championship at the first event for which they are used.

10.3.3.3. Only helmet cameras are permitted.

10.3.3.4. No cameras are to be fitted to the Kart at any time

10.3.3.5. Chest mounted cameras are strictly prohibited.

10.3.3.6. Camera may be fitted to the top or on the side of the crash helmet. Chin mounted cameras are permitted, but must be relatively flush with the helmet chin guard.

10.3.3.7. Cameras mounted lower than the helmet chin guard are strictly prohibited.

10.3.3.8. Only genuine manufacturer's camera mounts are permitted. No universal or extended mounts will be allowed.

10.3.3.9. Suction mounts of any type are strictly prohibited.

10.3.3.10. Cameras mounted to Club100 loaned crash helmets are not permitted.

10.3.3.11. Club100 reserve the right to confiscate any on-board footage at any time during the race meeting and/or the championship.

10.3.3.12. The organisers reserve the right to black flag any driver who is deemed to not be adhering to any of the above regulations. Likewise, the dummy grid marshals shall also reserve the right to remove a driver from the grid, if they are deemed not to be adhering to any of the above regulations.

10.3.4. Any driver leaving the track more than twice in one stint may be excluded from that stint.

10.3.5. If a driver is deemed to have left the track and has gained a time advantage by cutting across to another part of the track then the driver will either be black flagged and held in the pits for the time gained from cutting the track plus 10 seconds or docked a lap.

10.4. TRANSPONDERS

10.4.1. Teams and Drivers are responsible for the return of transponders at the end of each race day. Any team / driver who does not return their transponder will be charged £245 + VAT for a replacement.

10.5. INSURANCE

10.5.1. Club100 Racing Ltd are covered by their own public liability insurance.

10.5.2. Competitors are responsible for their own personal accident insurance.

10.5.3. It is recommended that all competitors take out their own personal accident insurance.

10.6. BEHAVIOUR

10.6.1. Competitors are reminded that anyone using foul language or threatening behaviour may, at the discretion of Club100, be excluded from the meeting.

10.6.2. Competitors are responsible for the behaviour of their supporters, family and friends

10.6.3. It is expected that all competitors act in good faith and with common sense.

10.7. RULE MODIFICATIONS

10.7.1. Club100 reserve the right to modify the rules at any time, especially on the day of an event. Such changes to the rules are likely to only be in the interests of safety or maintaining high driving standards.

10.7.2. Any further regulations will, where possible, adhere to MSA Blue Book.

11. TYRE PRESSURES

11.11.1. The Club100 technicians will set tyre pressures on the day. Teams are not allowed to alter tyre pressures. Staff will happily check pressures if requested.

11.11.2. Any team found to be adjusting tyre pressures will be disqualified from the race. No Points.

12. CHAMPIONSHIP POSITIONS

12.1.1. The best 7 results from the 9 rounds will count towards the results for the Premier Class Championship where the results from the Qualifier Race Days count as the 1st round of the championship.

12.1.2. The best 4 results from the 5 rounds will count towards the results for the Intermediate Class Championship where the results from the Qualifier Race Days count as the 1st round of the Intermediate Class Championship. The points from the Qualifier Race Days will be re-allocated in accordance with Rule 8.

12.1.3. In the event of a tie on points between teams at the end of the season, the winner shall be the team with the most first places. If the teams are still tied, we go to second places and so on until a result is achieved. In the unlikely event of a tie at this point, the team with the earliest highest round position will be the winner.

13. RULES OF APPEAL

13.1.1. Club100's decisions are final.

13.1.2. No appeals may be made to revoke a decision that Club100 have made.

13.1.3. Should you suspect a team of breaking the rules with regards to the setup of the kart, the eligibility of the drivers, the weight of the drivers including all race gear and ballast, the composition of the team, or if someone push-started the kart whilst on the track and this can be verified, then the Club100 will attempt to make an informed decision upon whether to invoke an appropriate punishment as specified by the rules. There will not be any other type of appeals.
